

No Sting Medical Adhesive Remover Wipes

Appeel® Sterile No Sting

Medical Adhesive Remover Wipes

Product Description

Appeel Sterile No Sting Medical Adhesive Remover Wipes contain a no sting healthcare-grade silicone fluid which aids the removal of stoma pouches and other adhesive appliances from the skin. Use of the product helps to reduce skin stripping and peri-wound trauma and pain caused by the removal of adhesive appliances. Appeel Sterile No Sting Medical Adhesive Remover Wipes help to maintain skin integrity whilst assisting quick and easy appliance removal. It is fast-drying, leaving no residue on the skin, which allows adhesive appliances to be re-applied shortly after use.

Indications for use

Appeel Sterile No Sting Medical Adhesive Remover Wipes are indicated for use on intact and injured skin, facilitating the quick and easy removal of stoma bags and other adhesive appliances. This product may be used on adults and children.

Contraindications

Not intended for direct use on broken skin. If in doubt, patch test a small area prior to use.

Caution

Use only as directed. For external use only. Allow product to evaporate completely before covering. Sterile device. Do not use near and do not drip fluid into eyes, ears, nose, or mouth. Sachets are individually packaged for single use only. Reuse of this product may affect the performance and create additional risks to the user. May not be suitable for use on babies under 30 days old. Dispose of the product in accordance with local regulations.

Instructions For Use

1. Skin should be clean and dry prior to application.
2. Wear sterile gloves to maintain sterility when using this product.
3. To open the sachet, tear along either notch across the top.
4. Remove the wipe from the sachet and gently wipe over the adhesive appliance to release it from the skin.
5. Gently lift and repeat as needed. Use additional wipes if required for larger adhesive appliances.
6. Dries in seconds. Allow Appeel Sterile to evaporate completely before covering.
Once dried, it will not affect any adhesion of further appliances.
